10. **Force Majeure Clause.**

(a) Neither party shall bear responsibility for the complete or partial non-performance of any of its obligations (except for failure to pay any sum which has become due on account of receipt of submarine under the provisions of the present contract), if the non-performance results from such Force Majeure circumstances as Flood, Fire, Earth Quake and other Acts of God as well as War, Military Operation, Blockade, Acts or Actions of State Authorities or any other circumstances beyond the parties control that have arisen after the conclusion of the present contract.

(b) In such circumstances, the time stipulated for the performance of an obligation under the present contract is extended correspondingly for the period of time of action of these circumstances and their consequences.

(c) The party for which it becomes impossible to meet obligations under this contract due to Force Majeure conditions, is to notify in written form to the other party of the beginning and cessation of the above circumstances immediately, but in any case not later than 10 (Ten) days from the moment of their beginning (or so much more or less as may be agreed upon).

(b) In the event that BIDDER exercises their right to suspend the performance under the contract under this clause then, provided such circumstances of Force Majeure has continued for 14 days (or so much more or less as may be agreed upon), the BIDDERS shall have the right to terminate the performance under the contract. In the event that the BIDDERS exercise their right to terminate the performance under the contract under this clause and the voyage has begun, the BIDDERS shall tender redelivery of the submarine at a convenient port or location, to be determined in consultation with the IN, and such redelivery shall constitute good redelivery under the terms of the contract. (a) For the purpose of the following, the rate of **demurrage** is to be agreed at Euros 21,000/- (Twenty One Thousand Euros) per day or pro rata for part thereof:-

(i) In case of delay in delivery of the cargo in a fit state to be loaded and to be carried after the date and time mentioned in the Notice of Readiness, and after elapse of the laytime as more specifically described at Part II, Para 9, the IN shall pay to the BIDDER, demurrage at a rate as indicated above and all other additional cost(s) and expenses incurred by BIDDER at the port or location for loading as a result of such delay, such as but not limited to harbour dues, agency fee, cost of bunkers consumed, etc.

(ii) In the event during the voyage, the cargo and / or IN (and / or IN personnel joining onboard the Transportation Unit) causes a delay in the execution of the voyage, the IN shall pay to the BIDDER demurrage over the loss of time thereby occasioned at the rate as indicated above,

together with all other additional cost(s) and expenses, such as but not limited to harbour dues, agency fees, cost of bunkers consumed, etc., properly incurred by BIDDER as a result of such delay.

(iii) In case the cargo cannot be discharged without (in the opinion of the Master of the Transportation Unit) undue delay or unacceptable risk and / or cannot be redelivered to the **IN** at the port or location of discharge and / or on the agreed conditions of the contract due to the non-performance by the **IN** of its obligations under the terms of this contract and / or due to reasons beyond the control of the BIDDER, the **IN** shall pay to the BIDDER for each delay demurrage at a rate as indicated above and all other additional cost(s) and expenses incurred by BIDDER at the port or location of discharge as a result of such delay, such as but not limited to harbour dues, agency fees, cost of bunkers consumed, etc.

(iv) The Transportation Unit will not be bound to enter any icebound port or any location where lights, lightships, marks or buoys on arrival are or are likely to be withdrawn by reason of ice or where there is risk that the Transportation Unit will not be able, on account of ice, to enter, reach or leave the port or location. If, on account of ice, the BIDDER considers it dangerous to enter or to remain at any loading or discharge port or location for fear of being frozen in or sustain damage, the BIDDER shall have the liberty to sail to another port or location which is free of ice and at which there are facilities for loading or discharging the cargo and there await the **IN**'s further instructions. The **IN** is to give further instructions within a reasonable time but in any event within 5 (five) working days. The whole of time occupied from the time the Transportation Unit is diverted by reason of ice or other conditions resulting from ice until its arrival at an ice free port, as well as any detention by reason of ice or any of the above causes and the time waiting in such ice free port or location, shall be paid for by the **IN** at the deviation and / or demurrage rate as indicated above.

(v) Should the Transportation Unit be detained in the port or location of loading and / or the port or location of discharge and / or in a port or location of refuge and / or any other port scheduled as port of call during the voyage, because of quarantine, any detention so caused shall be paid for by the **IN** at the demurrage rate and on conditions as indicated above provided quarantine is not caused by BIDDER's personnel.

(vi) The BIDDER shall not be responsible for any loss or damage or delay directly or indirectly caused by or arising from strikes, lockouts, labour disturbances, trade disputes, blockades, or anything done in contemplation or furtherance thereof.

(b) In case **deviation** takes place due to the following, the **IN** agrees to pay to BIDDER the sum of Euros 21,000/- (Twenty One Thousand Euros) per day plus actual bunkers consumed per day or pro rata for part thereof for the extra sailing time / for the prolongation of the voyage:-

(i) In case the cargo cannot be loaded at the port or location of loading without unacceptable risk (in the opinion of the Master of the

Transportation Unit) then BIDDER shall have the option to nominate in consultation with the **IN** another port or location of loading as near as possible to the contemplated port or location of loading. Such nomination and / or loading shall be without prejudice to BIDDER's rights. The **IN** will further pay to BIDDER the deviation rate as indicated above, for each day or pro rata for part of a day lost as a result of sailing to such unscheduled port or location. The time lost is either (aa) the actual time required for sailing from the contemplated port or location of loading to the unscheduled port or location of loading or (ab) the additional mobilisation time required to reach such unscheduled port or location. The **IN** shall further pay to the BIDDER all other additional cost(s) and expenses incurred by the BIDDER as a result of loading or contemplated loading at such unscheduled port or location.

(ii) In case the cargo cannot be discharged at the port or location of discharge without (in the opinion of the Master of the Transportation Unit) undue delay or unacceptable risk then the BIDDER in consultation with the **IN** shall have the option to discharge the cargo at an unscheduled port or location as near as possible to the contemplated port or location of discharge.

(iii) In case the cargo is so discharged in another location or port than contemplated hereunder, the **IN** will pay to the BIDDER the deviation rate as indicated above, for each day or pro rata for part of a day lost as a result of discharging at an unscheduled port or location. The time lost will be established by comparing the actual time of redelivery of the cargo to the **IN** (increased by additional demobilisation time, if any) with the time, in which the cargo could have reasonably been redelivered as originally intended. The **IN** will also pay to the BIDDER all other additional cost(s) and expenses incurred by the BIDDER as a result of discharging at an unscheduled port or location.
